## DETAILED ACTION

### ***Claim Rejections - 35 USC § 103***

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(e), (f) or (g) prior art under 35 U.S.C. 103(a).

3. Claims 24-63 and 66-68 are rejected under 35 U.S.C. 103(a) as being unpatentable over the User's Guide Data Digger Version 6

publication, cited by applicants, in view of Slotznick, of record. The User's Guide Data Digger Version 6 publication discloses a funeral planning method employing a computer, see page 1, second paragraph, that includes programming to make the funeral arrangements disclosed on pages 49 to 61. The arrangements include selecting the service location, the type of service, the date of the funeral service, the funeral director, the embalmer, visitation hours, the clergy, the cemetery and the casket or urn. The computer receives data from the user that includes biographical information, see pages 28 to 43, the period of execution, see page 50 and funeral arrangement information, see pages 49 to 61. The planning data is utilized to generate a funeral plan that is output on the various forms that are sent to the printer, see pages 74-92. Pre need planning is disclosed on pages 70 to 73. The User's Guide Data Digger Version 6 publication does not disclose processes that display images of funeral items and does not display a funeral plan and allow the user to modify or accept the plan. Slotznick discloses a computer for making plans that displays images for selection, see Fig. 7 and displays the plan, see col. 20, lines 9-12, and allows the user to

modify or accept the plan, see col. 20, lines 13-17. It would have been obvious to one of ordinary skill in the art in view of the showing and teaching of Slotznick to provide the computer of the User's Guide Data Digger Version 6 publication with means to display images of the items in order to assist the user in the selection process and with means to display the plan to allow the user to modify or accept it.

4. Claims 64 and 65 are rejected under 35 U.S.C. 103(a) as being unpatentable over the User's Guide Data Digger Version 6 publication in view of Slotznick as applied to claim 24 above, and further in view of Tavor et al, of record. The User's Guide Data Digger Version 6 publication, as modified by Slotznick, discloses all the features of the applicants' claimed invention except the multimedia presentation. Tavor et al show a method of shopping over the Internet that includes multimedia presentations to make the session enjoyable for the customer, see col. 8, lines 51-53 and the Abstract. It would have been obvious to one of ordinary skill in the art in view of the showing and teaching of Tavor et al to provide the system of the User's Guide Data

Digger Version 6 publication with a multimedia presentation to make the session more enjoyable for the customer.

***Response to Arguments***

5. The applicants' remarks have been considered but have not been found persuasive because the User's Guide Data Digger Version 6 publication discloses a computerized method of making funeral arrangements.

***Conclusion***

6. Applicant's submission of an information disclosure statement under 37 CFR 1.97(c) with the fee set forth in 37 CFR 1.17(p) on 23 October 2003 prompted the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 609(B)(2)(i). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of

this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
